

## Display Board Spotlight

Scan our QR code to  
view the full  
assembly video

You'll receive 2x LED bulbs,  
UK plugs & clamp brackets.

### Step 2

Connect the plug into the main light unit.

### Step 3

Slide the bracket to the base of  
the light as shown.

### Step 4

Slide the light over the display  
board. Turn the locking nut to secure  
into place.

## Step 5

You can adjust the tilt by moving the head backward and forward.

## Step 6

You can switch the light on/off by using the switch as shown above.
