

Event Triangle Plinth

Scan our QR code to view the full assembly video

Step 1
Unpack the panels and top, standing the panels upright.

Step 2
Hold the edges of the panels and pull open.

Step 3
Configure the panels in a triangle. Pull the 2 end panels together so the frame meets.

Step 4
Place the metal plinth top in to the ridge around the top of the panels.

Step 5
Before using, ensure the plinth top has correctly and securely been added to the top of the panels.
