# Natural Banner Stand

Scan our QR code to view the full assembly video
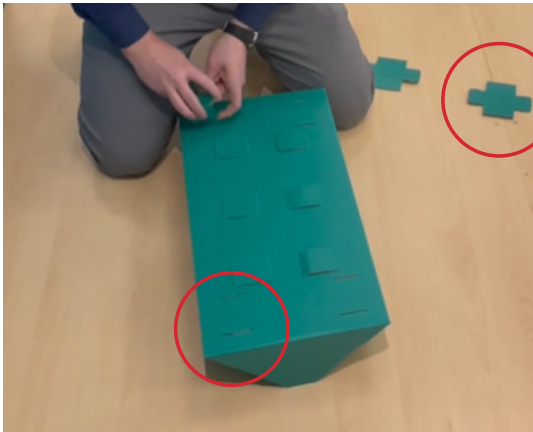

You'll receive base, front & back panel.

Step 1
Take the base section, folding one side and pulling the tabs through the second row of slots.

Step 2
Pull the entire tab through, then fold over and thread back through the slots closet to you.
Complete process on both sides.

Step 3
Turn the base on it's side and fix together using the tabs.
Complete on both sides.

Step 4
Take the 4 additional pieces that fold and fit into the 4 corners of the base.

Step 5
Lay the front and back panel of the banner on the floor. Feed the tabs from one panel in to the slots on the side of the other.

Step 6
Flip the banner over, so the print is now facing upwards. Connect the other side of the banner together using the tab and slot system.

Step 7
Finally, place the constructed banner into the base.
